STEP 7

STEP 1

Have a strip of MDF cut to your desired splash back size. Paint the MDF with 1-2 coats of Cuprinol Garden Shades 'Natural Stone' and allow to dry

STEP 2

Draw a 16cm square onto stencil card, with a 1cm border inside this square. Draw an intersecting line from corner to corner, creating a cross through the square

STEP 3

Cut out the two opposing triangles and repeat steps 2 and 3 so that you have one stencil for each colour

STEP 4

Using chalk, mark out a 15 cm squared grid on your dry, painted MDF

STEP 5

Hold your stencil in place with masking tape and use a sponge dipped in Cuprinol Garden Shades 'Terracotta' to dab lightly through the stencil

STEP 6

Gently peel off the masking tape and reposition the stencil to fill in every other tile with the first colour. Allow to dry

STEP 7

Using the second stencil, invert the design and fill in the remaining tiles with Cuprinol Garden Shades 'Seagrass'. Allow to dry before securing your garden tile effect in place
